

FROM DESK OF CHRIS MURPHY - Guardian of P.K. Murphy

5/15/19

RE: Patricia K. Murphy; 01/18/1950

Today pt. and undersigned attended appointment w/ Dr. Romeo, Psychiatrist for above identified patient, and then pt. and undersigned met with nursing staff at Oak Leaf Village to update staff on changes and blood draw for labs. As a result of these meetings, there are a couple of open action items that remain. Here is what needs to occur:

**DR ROMEO'S OFFICE ACTION ITEMS:**

Oak Leaf Village needs updated orders for the change of Zyprexa (from 10mg to 5mg) and will need orders once the Ostetto is available - Oak Leaf will need an order for that as well. Oak Leaf Village's fax line for these communications is 614-431-4946.

**OAK LEAF VILLAGE ACTION ITEMS:**

Doing a blood draw on Friday, May 17, 2019, make sure blood is taken in the morning PRIOR to pt. taking morning lithium dose. Once the results are back from lab, please transmit the same to Dr. Romeo's - fax number is 614-627-1604.

Notes taken during meeting w/ Romeo:

Notes - mom 5/15 - reduce zyprexa from 10 to 5mg; lithium re-check need to be sure it is a valid draw, no morning lithium dose prior to blood draw we are at 1.2 and the upper end of the safe limit is 1.3 - historically she has been around 0.7-0.8 - I think we should re-check it and Romeo agrees - getting order for that; tell Oak Leaf that results need sent to dr Romeo my Carmel health system; Invega sustenna 156mg (no change) - Lithium 300 morning - 600 mg at night (may change after labs); Trazadone 2x100 at night; Zyprexa 5mg (this is a change) at night Go ahead and do another lithium draw to make sure we are okay on lithium levels

Ostetto - for tremor - Genoa Pharmacy - they do prior auths and it will be less expensive and they deliver the med to facility - starting at low dose to start; well tolerated med 6mg twice a day - Romeo to handle or start the process for the Ostetto

Goal is a slow taper on Zyprexa

Scripts being sent to Kroger on Sunbury Rd except Genoa for Ostetto

Need to know the name of the new pharmacy that Oak Leaf is using so Romeo can transmit directly.

Notes taken w/ OLV N/S

Notes with nursing staff at facility

They need orders from Romeo on the Zyprexa change - also wanted an order once the Ostetto is started. Discussed the blood draw to check lithium levels -

**New Pharmacy for OLV is Remedi 800-232-4239 out of Troy, OH**

SENT VIA FAX TO DR. ROMEO & OAK LF V  
5-15-19  
12:06 PM

Misc. NOTES - DECOMPRESS

5/15/19 CSM

next appts to Romeo are

8/5/19 2pm

11/7/19 @ 2pm - already added to calendar -

Dr Romeo still to call about moving up to morning  
once Romeo's on-call schedule is out.

I need to give mom a little more of a break on  
some of the challenges on weight gain. Dr. R. gave the impression  
but the response is sticking against her pretty hard. Also,  
celebrate p's successes a little better - she has undergone major  
change - and is much better in new environment. Give more  
positive feedback.
